Dear Ed,

After a good night sleep and lots of coffee we are are back in town.

On the morning of the 2th of nov. we meet each other with the stageboxes (64 channels) . We are coming to Rotterdam at 10.30 hrs.

Will you confirm this time?

So that we can check things out. We talk the things here over about the techn. problems and we're bringing one of our best techn. engineers with us, so together with your guys we can solve all the things.

My sugestion is to check everything out in the afternoon!

Anyway let me know.

Have a good trip trough Europe and see you then.

Hi Juul,

Sorry for the tarty reply, we haven't had the easiesttime accessing "e" mail on a daily basis. We just finished a

multi track recording in Spain without incident, we're looking forward to having a clean hookup with your mobile.

10:00 would seem to be a better time we may have to wait but

we can run lines etc.

Greetings Ed Malony - EWF
