Radio Caroline Box Set Jumbo R111-116

Dear Sir/Madam,

Please find the long awaited 6 album box set..The Radio Caroline Story. The album looks at the story of the world's most famous radio station from 1964 right through till the end of January 1984. There have been some alterations to the story with the inclusion of additional interviews. With the return of Caroline in 1983 we have included interviews with Robin Ross, Tom Anderson, Andy Archer, Tony Garreth, and others.

Originally we had intended to press the set on blue vinyl but on advice from the record pressing plant that blue or in fact any 'coloured' vinyl is prone to noise we decided to press on black vinyl. The sets are, of course, still specially numbered from 1 to 1000.

I hope you will enjoy listening to the LPs. As advertised there is a photo booklet supplied with the package but as these are delayed at the printers the book will be sent on to you separately. I look forward to hearing your comments when you have listened to the records.

Yours sincerely,

Bill Rolins

Producer! The Radio Caroline Story.
